

# Veterinary certificate to EU

**Part I : Details of dispatched consignment**

I.1. Consignor Name Address  Country Phone	I.2. Certificate reference number	I.2.a. TRACES reference number :
	I.3. Central Competent Authority	
	I.4. Local Competent Authority	
	I.6 Person responsible for load in EU	
I.5. Consignee Name Address  Country Phone		
I.7. Country of origin, ISO code	I.8. Region of origin, Code	I.9. Country of destination      ISO code      I.10. Region of destination      Code
I.11. Place of origin Name Address  Approval number	I.12. Place of destination	
I.13 Place of loading Address  Approval number	I.14 Date of departure	
I.15. Means of transport Aeroplane <input type="checkbox"/> Ship <input type="checkbox"/> Railway wagon <input type="checkbox"/> Road vehicle <input type="checkbox"/> Other <input type="checkbox"/>	I.16. Entry BIP in EU Name      BIP unit no.:	
Identification:: Document:	I.17. No.(s) of CITES	
I.21 Temperature of products	I.20. Quantity	I.22. Total Number of Packages
I.23. Identification of container/Seal number		
I.25. Commodity certified as: Approved bodies <input type="checkbox"/> Breeding <input type="checkbox"/> Circus <input type="checkbox"/> Human consumption <input type="checkbox"/> Fattening <input type="checkbox"/> Animal feedingstuff <input type="checkbox"/> Further process <input type="checkbox"/> Other <input type="checkbox"/> Pets <input type="checkbox"/> Pharmaceutical use <input type="checkbox"/> Quarantine <input type="checkbox"/> Registered horses <input type="checkbox"/> Relaying <input type="checkbox"/> Artificial reproduction <input type="checkbox"/> Slaughter <input type="checkbox"/> Game restocking <input type="checkbox"/> Technical use <input type="checkbox"/>		
I.26. For transit to 3rd Country by EU	I.27. For import or admission into EU  Horses Re-entry	
I.28. Identification of the commodity <u>Species (scientific name)   Breed/category   Identification system   Identification number</u>		

## II. Health information

II.a. Certificat reference number

II.b. TRACES reference number

## 1. Health information

I, the undersigned, certify that the horse described above meets the following requirements:

- (a) It comes from a country where the following diseases are compulsorily notifiable: African horse sickness, Dourine, Glanders, Equine encephalomyelitis (of all types including VEE), Infectious anaemia, Vesicular stomatitis, rabies, anthrax.
- (b) It has been examined today and shows no clinical sign of disease (2).
- (c) It is not intended for slaughter under a national programme of infectious or contagious disease eradication.
- (d) it has not been outside the Community for a continuous period of more than 30 days and was imported into the country (1) of dispatch on (5) either from a Member State of the Community or from a country appearing in the same group (see above) and since its exit from the Community it has never been in a country other than those in the same group; it has been resident on holdings under veterinary supervision, accommodated in separated stables without coming into contact with equidae of lower health status except during racing, competition or cultural events;
- (e) It does not come from the territory or in cases of official regionalization according to EEC legislation from a part of the territory of a third country in which:
  - (i) Venezuelan equine encephalomyelitis has occurred during the last two years;
  - (ii) Dourine has occurred during the last six months;
  - (iii) Glanders has occurred during the last six months;
- (f) It does not come from the territory or from a part of the territory of a third country considered, in accordance with EEC legislation, as infected with African horse sickness.
- (g) It does not come from a holding which was subject to prohibition for animal health reasons nor had contact with equidae from a holding which was subject to prohibition for animal health reasons:
  - (i) during six months in the case of Equine encephalomyelitis, beginning on the date on which the equidae suffering from the disease are slaughtered;
  - (ii) in the case of infectious anaemia, until the date on which, the infected animals having been slaughtered, the remaining animals have shown a negative reaction to two Coggins tests carried out three months apart;
  - (iii) during six months in the case of Vesicular stomatitis;
  - (iv) during one month from the last recorded case, in the case of rabies;
  - (v) during six months in the case of equine viral arthritis;
  - (vi) during 15 days from the last recorded case, in the case of anthrax.

If all the animals of species susceptible to the disease located on the holding have been slaughtered and the premises disinfected, the period of prohibition shall be 30 days, beginning on the day on which the animals were destroyed and the premises disinfected, except in the case of anthrax, where the period of prohibition is 15 days;

- (h) To the best of my knowledge, it has not been in contact with equidae suffering from an infectious or contagious disease in the 15 days prior to this declaration.

2. The animal(s) will be sent in a vehicle cleansed and disinfected in advance with a disinfectant officially recognized in the country of dispatch and designed in a way droppings, litter or fodder cannot escape during transportation.

The following declaration signed by the owner or representative is part of the certificate.

3. The certificate is valid for 10 days. In the case of transport by ship the time is prolonged by the time of the voyage.

## 4. DECLARATION

The undersigned (insert name) owner or representative (4) of the animal(s) described above, declares that:

- the horse will be sent directly from the premises of dispatch to the premises of destination without coming into contact with other equidae not of the same health status;
- the conditions of paragraph (d) in Chapter 1 are fulfilled;
- the horse was exported from the EEC on (4).

- (1) Part of territory in accordance with Article 13 (2) of Council Directive 90/426/EEC.
- (2) The certificate must be issued on the day of loading of the animal(s) for dispatch to the Member State of destination. It must accompany the consignment and covers only animals transported in the same railway wagon, lorry, aircraft or ship and taken directly to the slaughterhouse.
- (3) Delete as appropriate.
- (4) Insert date.

In the case of a registered equine animal, tests carried out, their results and vaccination have to be entered in the identification document (passport).
