For others: no EU AH conditions and national PH conditions until 31.12.2013		
For meat products: AH and PH conditions – certificate of Regulation (EU) No 28/2012 For others except milk products: no EU AH conditions and national PH conditions until 31.12.2013		

AH – animal health

PH – public health

In addition the processed POAO used in all composite products has to come from a third country with an approved residue control plan (listed in Decision 2011/163/EU), even if the composite product is listed in Annex II to Decision 2007/275/EC and excluded from veterinary checks in BIPs;

In addition, milk products in composite products listed in Annex II to Decision 2007/275/EC have to come from listed third countries.

Origin of the composite product and the animal part used in the composite product

POAO in composite product	Country of origin of composite product	Country of origin of POAO contained in composite product
Meat product	TC listed in Decision 2007/777/EC for any heat treatment	Same TC or EU origin
	TC listed in Decision 2007/777/EC as A	In addition to the above different TC but listed for A in Decision 2007/777/EC
Milk product	TC listed in Regulation (EC) No 605/2010 as A, B or C	Same TC or EU origin
	TC listed in Regulation (EC) No 605/2010 as A	In addition to the above different TC but listed for A in Regulation (EC) No 605/2010
	TC listed in Regulation (EC) No 605/2010 as B	In addition to the above different TC but listed for B in Regulation (EC) No 605/2010
All other POAO	TC listed in relevant EU list	Same TC or EU country or Different TC but listed in relevant EU list

TC – third country
