	Certificate number (No)

III Attestation

I, the undersigned Official Veterinarian do hereby certify that:

1) the meat and meat products were derived from animals sent to slaughter from a region which according to the OIE Terrestrial Animal Health Code was free from the following diseases the certified animal species are susceptible to: Foot-and-mouth disease, Rinderpest, Contagious bovine pleuropneumonia, African swine fever, Classical swine fever, Highly pathogenic avian influenza and Newcastle disease;

2) Finland is recognized as a country with negligible BSE risk according to the BSE Chapter of the OIE Terrestrial Animal Health Code;

3) the meat and meat products were derived from animals that were at the time of slaughter in a good general state of health and under no restrictions due to OIE-listed diseases transmissible via meat and affecting the animal species concerned;

4) the meat and meat products were derived from animals that were slaughtered at an approved slaughterhouse in accordance with the European Union legislation under the supervision of the competent authority. The animals were subjected to *ante* and *post mortem* inspection according to the conditions laid down in the relevant European Union legislation and the meat was found to be sound and free from contagious diseases;

5) the meat and meat products fulfil the European Union legislation on official control for *Trichinella*;

6) the meat and meat products were manufactured at (an) establishment(s) and stored at (a) store(s) that have been approved and that are under the supervision of the competent authority;

7) the meat and meat products were handled, produced, packed and stored under sanitary conditions in accordance with the European Union legislation on public health requirements;

8) the meat and meat products were at the time of loading in perfect condition and unconditionally fit for human consumption; and

9) Finland implements an official testing program for harmful organisms, veterinary drug residues and other toxic substances. The results of the tests meet European Union performance standards and have not provided any evidence as to the presence of chemical/drug residues or toxic substances or harmful organisms in this consignment which could be harmful to human health.
